4. First Aid Measures

**Eye Contact**
In case of contact, flush eyes with plenty of water for at least 15 minutes. Call a physician immediately.

**Skin Contact**
In case of skin contact, wash affected areas with soap and water. Immediately remove contaminated clothing and shoes. Get medical attention.

**Inhalation**
If inhaled, remove to fresh air. If breathing is difficult, give oxygen. If not breathing, give artificial respiration. Get medical attention.

**Ingestion**
If ingested, do not induce vomiting unless directed to do so by medical personnel. Get medical attention.

5. Fire-Fighting Measures

**Suitable Extinguishing Media:** carbon dioxide (CO2), dry chemical, foam, water spray for large fires.

**Special Fire Fighting Procedures**
Firefighters should be equipped with self-contained breathing apparatus to protect against potentially toxic and irritating fumes. Use cold water spray to cool fire-exposed containers to minimize the risk of rupture.

6. Accidental release measures

**Spill and Leak Procedures**
Cover spill with inert material (e.g., dry sand or earth) and collect for proper disposal. Use appropriate personal protective equipment during clean up. Evacuate and keep unnecessary people out of spill area.

7. Handling and Storage

**Storage Temperature:**
- **maximum:** 50 °C (122 °F)

**Storage Period**
6 Months

**Handling/Storage Precautions**
Handle in accordance with good industrial hygiene and safety practices. Wash thoroughly after handling. Keep container closed when not in use. Material is hygroscopic and may absorb small amounts of atmospheric moisture. If contamination with isocyanates is suspected, do not reseal containers. Do not get on skin or clothing. Do not get in eyes. Do not breathe vapours or spray mist.
8. Exposure Controls / Personal Protection

Country specific exposure limits have not been established or are not applicable

**Industrial Hygiene/Ventilation Measures**
Under normal conditions of use, special ventilation is not required.

**Respiratory Protection**
In case of insufficient ventilation wear suitable respiratory equipment.

**Hand Protection**
Permeation resistant gloves.

**Eye Protection**
Chemical resistant goggles must be worn., Chemical safety goggles in combination with a full face shield if a splash hazard exists.
